

Management Plan to use prescribed fire within the BWCAW. U.S.D.A. Forest Service, Eastern Region, may request the project be considered an emergency under CFR 215.10(d)(1) in order to allow for implementation during the appeal period. The use of motorized and mechanized tools were not allowed by the general public and flights below 4,000 feet above sea level on National Forest System lands within the BWCAW would also require approval.

#### Lead and Cooperating Agencies

The Superior National Forest manages approximately 800,000 acres within the boundaries of the BWCAW. It is the lead agency for preparation of this document. The State of Minnesota manages approximately 279,000 acres within the boundaries of the BWCAW. In order to achieve the best arrangement of prescribed burn treatment units to minimize the risk of an escaped wildfire it may be necessary to treat State lands. The Minnesota Department of Natural Resources is a cooperating agency on this project. They will provide direction and approval regarding fuels treatment on State lands.

#### Responsible Official

James W. Sanders, Forest Supervisor, Superior National Forest, is the responsible official. In making the decision, the responsible official will consider the comments; responses; disclosure of environmental consequences; and applicable laws, regulations, and policies. The responsible official will state the rationale for the chosen alternative in the Record of Decision.

Dated: March 20, 2000.

**James W. Sanders,**

*Forest Supervisor.*

### Natural Resources Conservation Service

#### Notice of Proposed Changes to Section IV of the Field Office Technical Guide (FOTG) of the Natural Resources Conservation Service in North Dakota

**AGENCY:** Natural Resources Conservation Service (NRCS), USDA.

**ACTION:** Notice of availability of proposed changes in Section IV of the FOTG of the NRCS in North Dakota for review and comment.

**SUMMARY:** It is the intention of the NRCS in North Dakota to issue a revised

conservation practice standard, Wetland Restoration (Code 657), in Section IV of the FOTG. This practice may be used in conservation systems that treat wetlands.

**DATES:** Comments will be received on or before April 26, 2000.

**ADDRESSES:** Address all requests and comments to Myron P. Senechal, State Resource Conservationist, Natural Resources Conservation Service, P.O. Box 1458 Bismarck, ND 58502-1458. Copies of this standard will be made available upon written request. You may submit electronic requests and comments to Myron.Senechal@nd.usda.gov.

**FOR FURTHER INFORMATION CONTACT:** Myron P. Senechal, (701) 530-2085.

**SUPPLEMENTARY INFORMATION:** Section 343 of the Federal Agriculture Improvement and Reform Act of 1996 states that revisions made after enactment of the law to NRCS state technical guides used to carry out highly erodible land and wetland provisions of the law, shall be made available for public review and comment. For the next 30 days, the NRCS in North Dakota will receive comments relative to the proposed changes. Following that period, a determination will be made by the NRCS in North Dakota regarding disposition of those comments and a final determination of changes will be made.

Dated: March 16, 2000.

**Thomas E. Coleman**

*Assistant State Conservationist (Operations, Bismarck, North Dakota.*

## DEPARTMENT OF COMMERCE

### Bureau of the Census

[Docket Number 000207031-0074-02]

RIN Number 0607-XX55

#### Manufacturers' Shipments, Inventories and Orders (M3) Supplement: Unfilled Orders Benchmark Survey

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Notice of determination.

**SUMMARY:** Notice is hereby given that the Bureau of the Census (Census Bureau) will conduct a survey, the Unfilled Orders Benchmark survey, to supplement the monthly Manufacturers' Shipments, Inventories, and Orders survey for 1999. The Census Bureau has

determined that it needs to collect data covering unfilled orders in manufacturing. The data received from this supplement will provide the information necessary to benchmark the monthly estimates of unfilled orders in manufacturing.

**FOR FURTHER INFORMATION CONTACT:** Lee Wentela, Chief, Manufacturers' Shipments, Inventories, and Orders Branch, Manufacturing and Construction Division, on (301) 457-4832.

**SUPPLEMENTARY INFORMATION:** The Census Bureau is authorized to conduct surveys necessary to furnish current data on subjects covered by the major censuses authorized by Title 13, United States Code, Sections 182, 224, and 225. The Unfilled Orders Benchmark survey will provide continuing and timely national statistical data for the period between the economic censuses. The next economic census will occur in 2002. Data collected in this survey will be within the general scope, type, and character of those inquiries covered in the economic census.

This survey is a supplement to the Manufacturers' Shipments, Inventories, and Orders survey and will request end-of-year unfilled orders and annual sales data for 1999. The unfilled orders series is an important indicator of economic activity and has significant application to the needs of the public and industry. These data are not available from nongovernmental or other governmental sources.

The survey will require a selected sample of manufacturing companies, classified in industries for which unfilled orders are normally maintained longer than one month, to report in the 1999 Unfilled Orders Benchmark survey. We will furnish report forms and instruction manuals to the firms covered by this survey and will require their submissions within 45 days after receipt. The resulting unfilled orders estimates will be used to revise the levels currently being published for the monthly survey and will improve the accuracy of the data. The current estimates are based on a small sample and are subject to error. The survey is especially critical because of the conversion to the new North American Industry Classification System.

Notwithstanding any other provision of law, no person is required to respond to, nor shall a person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a current valid Office of Management and
